Attachments: XtendiMax Label Amendment

Flag: Follow up

Hello Camille:

I have taken a crack at updating your table in red below. As PM, Emily Schmid may have additional thoughts but she will be on leave until 10/24/22. Lindsay, do you have the PRIA date for the ESA action on hand? I'm having trouble locating that.

Please note that regarding the Bayer label amendment, as of 10/18/2022 the hooded sprayer contingency has been removed from Bayer's original proposal. I have attached Bayer's 10/18/22 email in case it is helpful for your review. Please note, however, that EPA is currently in negotiations to potentially add additional counter-proposal elements to Bayer's proposed mitigation and the final contents of the amendment may still change.
